

WATER SYSTEMS OPERATOR II

DEFINITION

Under general supervision, to perform maintenance, operations, and repair work on the City's water treatment and distribution system, pumps, mains, chlorinators, meters, and other equipment; to perform a variety of operations, monitoring, maintenance, and repair work on pumps and associated equipment; and to do related work as required. Serves as Disaster Service Worker. FLSA Status: Non-exempt. Bargaining Group: Miscellaneous Unit.

DISTINGUISHING CHARACTERISTICS

This is the advanced worker level in the Water Systems Operator class series. This level is distinguished from Water Systems Operator I by the exercise of more complex responsibilities, greater expertise in maintenance, operations, and repair work on the City's water distribution system, and possessing a Water Treatment Operator certification. Incumbents also perform a variety of monitoring, maintenance, operations, and repair work on the City's treatment system. Incumbents in this class are subject to twenty-four hour "call out" and standby.

REPORTS TO

Water Division Supervisor/Manager, Water Systems Operator III, or as assigned.

CLASSIFICATIONS SUPERVISED

This is not a supervisory class.
